Summary Statement:

The Fire Department needs additional fire equipment storage at the Lake Road Fire Station. We have acquired the State's Fire engine which increases our fire fighting capacity but with our limited equipment storage space we are having to store equipment outside.

This extension will be in the back SE corner about 42' wide and 40' deep extending South. The Project Manger estimates the cost to be about \$400,000 to \$500,000.

The project will be paid from the Ambulance Replacement Fund which has approximately \$616,000 in the fund.
