RE: Boil Water Notice for Dillingham WS - PWS: AK2260197

Dear City of Dillingham,

RE: Rescind Boil Water Notice for Dillingham Public Water System, PWSID AK22260197
Effective 08/23/2023; Community Public Water System; Ground Water source.

Dear City of Dillingham residents,

On 05/26/2026 our Department was notified that Dillingham WS self-issued a Boil Water Notice (BWN) on 05/23/2026 due to the power needing to be shut off to the treatment plant to make repairs to a damaged water main.

On 05/29/2026 we received satisfactory lab results for three coliform samples monitored from the Dillingham public water system's distribution.

Based on these lab results, the Department is **rescinding the Boil Water Notice (BWN) effective immediately**. You may notify your consumers accordingly and take down all BWN placards and public notices posted in public areas.

We appreciate your actions in resolving this matter and providing safe drinking water to your consumers.

If I may be of further assistance, please feel free to contact me at 907-262-8201 or by email at john.davis@alaska.gov.

Sincerely,

John C. Davis
