Independent Auditor's Report

Honorable Mayor and City Council City of Dillingham, Alaska Dillingham, Alaska

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Dillingham, Alaska as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

425 G Street

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Honorable Mayor and City Council City of Dillingham

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Dillingham, Alaska as of June 30, 2014 and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-11 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dillingham, Alaska's basic financial statements. The information listed in the table of contents as "Additional Supplementary Information", which includes the combining statements and schedules, individual major and non-major funds budget to actual schedules, schedule of expenditures of federal awards, and the state schedule of financial assistance are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. The accompanying state schedule of financial assistance is presented as required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits.

Honorable Mayor and City Council City of Dillingham

The Additional Supplementary Information listed above is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Additional Supplementary Information listed above is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

City of Dillingham, Alaska's basic financial statements for the year ended June 30, 2013, which are not presented with the accompanying financial statements and were audited by other auditors whose report thereon dated March 19, 2014 expressed unmodified opinions on the respective financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information. The report of the other auditors dated March 19, 2014, stated that the combining and individual fund financial statements and schedules for the year ended June 30, 2013 were subjected to the auditing procedures applied in the audit of the June 30, 2013 basic financial statements and certain additional auditing procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basis financial statements or to those basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and, in their opinion, were fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2013.

Other Reporting Required by Government Auditing Standards

altman, Rogers & Co.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 9, 2015 on our consideration of the City of Dillingham, Alaska's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Dillingham, Alaska's internal control over financial reporting and compliance.

Anchorage, Alaska

MANAGEMENT DISCUSSION AND ANALYSIS

CITY OF DILLINGHAM, ALASKA Management Discussion and Analysis Year Ended June 30, 2014

This section of the City of Dillingham, Alaska's annual financial report presents the City management's discussion and analysis of the City's financial activities for the fiscal year ended June 30, 2014 with comparable information presented for the year ended June 30, 2013. This discussion and analysis should be read in conjunction with the City's financial statements.

Financial Highlights for 2014

- In total, net position exceeded its liabilities at June 30, 2014 by \$42,443,083. Of this amount, \$6,191,526 in unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors.
- Total net position decreased by \$ 254,144 in 2014.
- At the close of the current fiscal year, governmental funds reported combined ending fund balances of \$6,544,065, which is a decrease of \$123,976 from the prior year. \$4,271,537 in unassigned fund balance is available for spending at the City's discretion.
- As of June 30, 2014, unassigned fund balance for the General Fund was \$4,427,006 or 64% of total General Fund expenditures.

Financial Highlights for 2013

- In total, net position exceeded its liabilities at June 30, 2013 by \$42,697,227. Of this amount, \$6,170,165 in unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors.
- Total net position increased by \$1,614,467 in 2013.
- At the close of the current fiscal year, governmental funds reported combined ending fund balances of \$6,668,041, which is an increase of \$778,789 over the prior year. \$4,144,832 in unassigned fund balance is available for spending at the City's discretion.
- As of June 30, 2013, unassigned fund balance for the General Fund was \$4,383,194 or 65% of total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. City of Dillingham, Alaska's basic financial statements are comprised of three components:

1) Government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves. The basic financial statements include two kinds of statements that present different views of the City's activities.

• Government-wide financial statements provide both short-term and long-term information about the City's overall financial status.

Management Discussion and Analysis, Continued

- Fund financial statements include the governmental fund statements which tell how basic services, such as, City Administration, Public Safety, Public Works, etc. were financed in the short-term as well as what remains for future spending and focus on individual parts of the City, reporting the City's operations in more detail than the government-wide statements.
- The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position will serve as an indicator of whether the financial position of the City is improving or deteriorating.
- The statement of activities presents information showing how the government's net
 position changed during the most recent fiscal year. All changes in net position are
 reported as soon as the underlying event giving rise to the change occurs, regardless of
 the timing of the cash flows. Thus, revenues and expenses are reported in this statement
 for some items that will only result in cash flows in future fiscal periods (e.g., uncollected
 taxes and earned but unused vacation leave).

The financial statements include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by two sections (1) additional supplementary information on individual fund activity, and (2) compliance reports.

Government-wide Statements

The Government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. Both of the Government-wide statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges. The City of Dillingham, Alaska does not have any business-type funds.

The Government-wide financial statements include all the City's *governmental activities*, which accounts for all of the City's basic services such as public safety, public works, community services, water and sewer, landfill, dock, boat harbor, senior citizen center, and education.

The Government-wide financial statements include one component unit, known as Dillingham City School District. The School District is a legally separate entity for which the City is financially accountable. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's funds, focusing on its most significant or "major" funds - not the City as a whole. Funds are accounting devices the City uses to keep track of specific sources of revenue and spending on particular programs.

Management Discussion and Analysis, Continued

Governmental Funds: Most of the City's basic services are included in governmental funds. Unlike the Government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of spendable resources, as well as balances of spendable resources left at fiscal year-end. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because the focus of governmental funds is narrower than that of the Government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the Government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Dillingham, Alaska maintains several individual governmental funds including Water and Sewer, Landfill and Dock Special Revenue Funds. These funds are considered governmental funds, not enterprise funds, as the City of Dillingham, Alaska does not expect to cover operational costs with user fees for any of these operations. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Landfill Closure Capital Project Fund and the Wastewater Treatment Plant Capital Project Fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* and individual budget to actual schedules elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with its budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide financial statements.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information presenting the combining statements displaying the other governmental funds.

Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Dillingham, Alaska, assets exceeded liabilities by \$42,443,083 at the close of FY2014, the most recent fiscal year.

CITY OF DILLINGHAM, ALASKA Management Discussion and Analysis, Continued

By far the largest portion of the City's net position (84%) reflects its net investments in capital assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

	_	2014	2013
		Governmental	Governmental
		Activities	Activities
Current and other assets	\$	7,242,669	7,154,576
Long-term and capital assets		48,390,637	49,188,665
Total assets		55,633,306	56,343,241
Current liabilities		539,436	379,783
Long-term liabilities		12,650,787	13,266,231
Total liabilities		13,190,223	13,646,014
Net position			
Net investment in capital assets		35,777,718	36,120,577
Restricted for Mary Carlson			
Estate Permanent Fund		388,161	389,699
Restricted for E-911 surcharge		79,606	7,751
Restricted for asset forfeitures		6,072	9,035
Unrestricted		6,191,526	6,170,165
Total net position	\$	42,443,083	42,697,227

The majority of net position is restricted for capital assets, net of debt (84% in 2014 and 85% in 2013). A small portion of the City's net position (1% in 2014 and 1% in 2013), represent resources that are subject to external restrictions on how they may be used. Such restrictions are for the restricted assets for Mary Carlson Estate Permanent Fund, Enhanced 911, and Asset Forfeitures. The remaining balance of unrestricted net position of \$6,191,526 in 2014 and \$6,170,165 in 2013 may be used to meet the government's ongoing obligation to citizens and creditors. At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for government as a whole, and for its separate governmental activities.

The governmental activities net position decreased by \$254,144 in 2014 and increased by \$1,614,467 in 2013.

CITY OF DILLINGHAM, ALASKA Management Discussion and Analysis, Continued

Governmental Activities

Governmental activities in 2014 decreased the City's net position by \$254,144. This decrease represents less than 1 % of government net position.

A detail of expenses for governmental activities is as follows:

	_	2014		2013	3
		<u>Expense</u>	<u>Percentage</u>	<u>Expense</u>	<u>Percentage</u>
Function:					
General government	\$	4,199,300	29%	1,718,123	15%
Public safety		2,617,538	18%	2,505,506	22%
Public works		1,526,389	11%	1,196,705	10%
Community services		589,607	4%	231,125	2%
Water and sewer		685,838	5%	1,152,581	10%
Landfill		649,301	4%	760,835	7%
Dock		1,267,488	9%	883,166	8%
Boat Harbor		249,564	2%	279,056	2%
Senior citizen center		461,006	3%	476,223	4%
Education		1,663,207	11%	1,685,257	15%
Interest on long-term debt	_	576,090	4%	587,306	5%
Total	\$_	14,485,328	100%	11,475,883	100%

The main reason for the increase in General government expenses was adjustments of approximately 2.6 million in discontinued capital projects.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflow, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2014 the City's governmental funds reported combined ending fund balances of \$6,544,065, a decrease of \$123,976 from the prior year. Of this amount \$2,272,528 is non-spendable, restricted, committed, or assigned for specific purposes. \$4,271,537 is available for spending at the government's discretion.

The General Fund is the chief operating fund of the City. At June 30, 2014 and 2013 the unassigned fund balance of the General Fund was \$4,427,006 and \$4,383,194, respectively, which is 98% and 99% of the total General Fund balance. As a measure of the General Fund's liquidity, both unassigned fund balance and total fund balance may be compared to total fund expenditures. Unassigned fund balance represents 64% of total General Fund expenditures at June 30, 2014 and 65% as of 2013.

Management Discussion and Analysis, Continued

The fund balance of the City's General Fund increased by \$60,247 in 2014 compared to an increase of \$1,072,535 in 2013.

General Fund budgetary Highlights

Differences between the original budget and the final budget can be briefly summarized as follows:

- Increase in federal sources of \$3,471;
- Decrease in State of Alaska funding of \$19,238;
- Increase in tax revenues of \$573,139;
- Decrease in licenses and permits of \$900;
- Increase in fines and forfeitures of \$15,000;
- Increase in lease and rental income of \$2,000;
- Increase in other revenues of \$59,556;
- Overall expenditure budget increased by \$156,078, primarily from the general government and public safety.

Capital Assets and Debt Administration

Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2014 amounts to \$48,254,062 (net of accumulated depreciation), a decrease of \$774,719 over last year. This investment in capital assets includes land, buildings, machinery, and equipment, and Improvements other than buildings.

Major capital asset events during the current fiscal year included the following:

- Improvements of \$87,232.
- Construction of \$2,698,424.
- Write off of discontinued projects of (\$2,659,445).
- Machinery and Equipment additions of \$930,994.

	_	2014	2013
		Governmental	Governmental
	_	Activities (Net of Accumulated Depreciation)	Activities (Net of Accumulated Depreciation)
Land	\$	4,862,446	4,862,446
Construction in progress		6,835,140	18,652,378
Buildings		16,891,137	12,037,706
Machinery and equipment		3,805,109	3,262,692
Improvement other than buildings	_	15,860,230	10,213,559
Total capital assets	\$	48,254,062	49,028,781

Management Discussion and Analysis, Continued

Additional information on the City's capital assets can be found in note 4 on pages 26 through 27 of this report.

Long-Term Debt – At the end of the current fiscal year, the City of Dillingham, Alaska had total bonded debt outstanding of \$12,146,981. This entire amount is backed by the full faith and credit of the City. The remainder of the City's debt represents revenue bonds, loans, compensated absences and landfill closure and post-closure costs.

The following table displays the long-term debt for the current year.

	Governmental Activities		
	2014 2013		
General obligation bonds, including premium	\$ 12,146,981	12,764,265	
Public works – grader	148,991	221,820	
Public works – vehicle	30,888 -		
Animal control vehicle lease	9,844 14,3		
Public safety vehicle lease (2012)	13,554 19,8		
Public safety vehicle lease (2013)	49,323 -		
Accrued leave (net)	172,206 166,93		
Estimated landfill closure costs	79,000	79,000	
Total long-term debt	\$ 12,650,787	13,266,231	

The City of Dillingham, Alaska's total debt decreased by \$615,444 during the current fiscal year. This decrease was due to debt payments during the year.

Additional information on the City of Dillingham, Alaska's long-term debt can be found in note 6 on page 28 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate hovers around 7.8% for the State of Alaska.
- Due to budget constraints, it is anticipated that State and Federal funding will decrease.
- These factors were considered in preparing the FY15 budget.

Requests for Information

This financial report is designed to provide a general overview of the City of Dillingham, Alaska's finances for all of those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Manager of the City of Dillingham, Alaska, P.O. Box 889, Dillingham, Alaska 99576.

BASIC FINANCIAL STATEMENTS

Statement of Net Position

Reconciliation of Governmental Funds Balance Sheet to Statement of Net Position

June 30, 2014

Net change in fund balances - total governmental funds			\$	(123,976)
The change in net position reported for governmental activities in the Statement of Net Activities is different because:				
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Capital outlay Depreciation expense	_	1,057,205 (1,823,587)		(766,382)
Governmental funds only report revenue from the sale of assets to the extend proceeds are received from the sale. In the Statement of Activities, a gain or loss is reported for each sale. The net effect of transaction involving capital assets is to decrease net position.				
Cost of assets sold Accumulated depreciation of assets sold.		(27,783) 19,446		(8,337)
	_	19,440		(0,337)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the amount of the increase in delinquent real property taxes and dock receivable.				29,107
The change in the estimated future landfill closure costs does not require the use of current financial resources and therefore is not reported as expenditures in governmental funds.				-
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.				
Principal paid on bonds Acquisition of capital leases Payments on capital leases Amortized bond premium	\$	600,000 (103,435) 106,870 17,284		620,719
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This is the the amount of the increase in accrued leave.				(5,275)
Change in net position of governmental activities			\$	(254,144)

Notes to Basic Financial Statements

June 30, 2014

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Dillingham, Alaska (the City) was incorporated in 1972 as a first class city and operates under a Council-Manager form of government. The City provides a variety of services including water, sewer, dock and port facilities, landfill, police and fire protection, street maintenance, services for senior citizens and general administrative services.

As required by generally accepted accounting principles, these financial statements present City of Dillingham, Alaska (the primary government) and its component unit, Dillingham City School District. The School District is included in the City's reporting entity because of the significance of its operational or financial relationships with the City.

The component unit column in the basic financial statements includes the financial data of the School District. It is discretely presented in a separate column to emphasize that it is legally separate from the City. Dillingham City School District is responsible for elementary and secondary education within the City. The members of the School Board are elected by the voters; however, the School District is fiscally dependent upon the City because the City Council approves the total annual budget of the School District, levies the necessary taxes, and approves the issuance of bonds for school projects.

Complete financial statements of the component unit can be obtained from the administrative office of the Dillingham City School District at P.O. Box 170, Dillingham, Alaska, 99576-0170.

B. Government-Wide and Fund Financial Statements

The Government-Wide Financial Statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the City and its component unit. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The City does not presently have any business-type activities. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use or directly benefit from goods or services provided by a given function or department and 2) grants and contributions that are restricted to meeting the operations or capital requirements of a particular function or department. Other items not properly included among program revenues are reported instead as *general revenues*.

Notes to Basic Financial Statements, continued

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the Fund Financial Statements.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers all revenues, except reimbursement grants, to be available if they are collected within 60 days after year end. Reimbursement grants are considered available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only to the extent they have matured.

Property taxes, sales taxes, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when received by the government.

The City reports the following major governmental funds:

The *General Fund* is the primary operating fund of the City. It accounts for all financial resources of the City, except those reported to be accounted for in another fund.

The Landfill Closure Capital Project Fund accounts for the construction of the new landfill and closure of the existing landfill.

The Wastewater Treatment Plant Capital Project Fund account for various improvement projects at the City's wastewater treatment facility.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. In addition, general revenues include all taxes, investment income, and State of Alaska entitlement revenues.

Notes to Basic Financial Statements, continued

D. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads and similar items), are reported in the governmental activities column in the government-wide financial statements, Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of the donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the useful life of the asset are not capitalized.

Property, plant, and equipment of the City is depreciated using the straight line method over the following estimated useful lives:

Buildings and improvements 15-75 years Infrastructure 10-50 years Machinery and equipment 5-40 years

E. Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. In the fund financial statements, governmental fund types recognize principal and interest payments made during the current period. The face amount of the debt issued plus any bond premium, are reported as other financing sources.

F. Property Taxes

Property taxes are levied as of January 1. The tax levy is payable in two installments due on or before the first business day of November, and the second payment on or before the first business day of December. The taxes are considered past due after the respective tax billing due date at which time the applicable property is subject to lien and penalties and interest are assessed on the total tax liability.

G. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Notes to Basic Financial Statements, continued

H. Grants and Other Intergovernmental Revenues

In applying the measurable and available concepts to grants and intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts are considered "earned"; therefore, revenues are recognized based upon expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the measurable and available criteria are met.

I. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet of the Fund Financial Statements and are eliminated in the preparation of the Government-Wide Financial Statements.

J. Compensated Absences

The City allows employees to accumulate earned but unused vacation benefits. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental fund financial statements only if they have matured (e.g. the employee as terminated employment).

K. Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of fund balances comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the City Council – the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the City removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Notes to Basic Financial Statements, continued

Assigned fund balance – This classification reflects the amounts constrained by the City's "Intent" to be used for specific purposes, but are neither restricted nor committed. The City Council and City Manager have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use externally restricted resources first then unrestricted resources – committed, assigned, and unassigned – in order as needed.

The City's Special Revenue Funds are used to account for public safety, community services, water and sewer, landfill, dock, boat harbor and the senior citizen center.

L. Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding borrowings, if any, used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through external restrictions imposed by creditors, grantor or laws or regulations of other governments.

M. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for expenditures are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund and Special Revenue Funds. However, it is the City's policy to cancel any outstanding purchase orders at June 30, and issue new ones in the new fiscal year.

N. Unearned Grant Revenue

Amounts received from grantor agencies, which are restricted as to use and have not been expended for the intended use are shown as unearned revenue.

O. Pension Plan

Substantially all employees of the City participate in the Public Employees' Retirement System (PERS) administered by the State of Alaska.

Notes to Basic Financial Statements, continued

P. Comparative Data

Comparative data for the prior year have been presented in some of the accompanying financial statements in order to provide an understanding of changes in the City's financial position and operations. In addition, certain amounts from the prior year have been reclassified to conform with the current year's presentation.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds except the Permanent Fund, and capital project funds, which adopt project-length budgets. All annual appropriations lapse at the fiscal year-end.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to June 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an ordinance.
- 4. The City Manager is authorized to transfer budgeted amounts within a fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.
- 5. Budgeted amounts are as originally adopted or as amended by the City Council through ordinances.

III. CASH AND INVESTMENTS

The City of Dillingham, Alaska utilizes a central bank account that is available for use by all funds. Each fund's portion of the account is displayed on the balance sheet as "cash and investments" or included in "due from/due to other funds."

Notes to Basic Financial Statements, continued

A. Reconciliation of Deposit and Investment Balances

The following is a reconciliation of the City's deposit and investment balances to the financial statements as of June 30, 2014.

Bank		Cash and	
deposits	\$345,498	investments	\$5,012,619
		Restricted cash	
Investments	4,803,696	and investments	136,575
	\$5,149,194		\$5,149,194

B. Investment Policy

The City's investment policy authorizes investments in:

- 1. Obligations of, or obligations insured or guaranteed by the United States of an agency or instrumentality of the United States.
- 2. Certificates of deposit, repurchase agreements, bankers acceptances and other similar obligations or a bank domiciled in the United States that has an outstanding debt rated at least "A" or its equivalent, by a nationally recognized rating service.
- 3. General obligations of a municipality within the United States, if the obligations are rated at least "A" by at least two nationally recognized rating services.
- 4. Mutual funds that consist of similar investments as listed above.
- 5. Money market and other cash equivalent investments (such as the Alaska Municipal League Investment Pool), with a maturity date of one year or less after date of investment, and that are of similar quality to the investments listed above.

C. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

The City's investment maturities in general investments are as follows:

		Investment Maturi	ties (in Years)
nvestment Type	 Fair Value	Less Than 1	1-5
Alaska Municipal League Investment Pool	\$ 301,900	301,900	-
Certificates of Deposit	2,775,664	1,054,550	1,721,114
Alaska Municipal Bonds	504,552	247,651	256,901
Federal National Mortgage Association – U.S. Agency Security	250,003	-	250,003
Money Market	233,572	233,572	-
Fixed Income Securities	738,005		738,005
Total	\$ 4,803,696	1,837,673	2,966,023

Notes to Basic Financial Statements, continued

D. Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. All of the investments in the U.S. government agencies are rated AAA by Moody's Investors Service.

Pooled investments are invested with the Alaska Municipal League Investment Pool, Inc. (AMLIP). The AMLIP is an external investment pool and is rated AAA for credit risk purposes. Alaska Statute 37.23 establishes regulatory oversight of the pool. The law sets forth numerous requirements regarding authorized investments and reporting. The share value of investments in the AMLIP is approximately equal to fair value.

IV. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2014 follows:

		Balance				Balance
Governmental Activities	_	July 1, 2013	Additions	Deletions	Adjustments	June 30, 2014
Capital assets not being depreciated:						
Land and land improvements	\$	4,862,446	-	-	-	4,862,446
Construction in progress		18,652,378	2,698,424	11,856,217	(2,659,445)	6,835,140
Total assets not being depreciated		23,514,824	2,698,424	11,856,217	(2,659,445)	11,697,586
Capital assets being depreciated:						
Buildings		18,076,161	5,502,349	-	=	23,578,510

VI. LONG-TERM DEBT

In 2008, the City issued \$15,105,000 in 2008 Series One General Obligation School Bonds for the purpose of major renovation of school facilities. The bonds were issued at a premium of \$345,686.

The following is a summary of long-term debt transactions for the year ended June 30, 2014:

		Balance			Balance	Due Within
	_	July 1, 2013	Additions	Deletions	June 30, 2014	One Year
\$15,105,000 2008 Series One General Obligation	_					
School Bonds, due in annual installments						
of \$600,000 to \$1,120,000, plus interest at						
4.0% to 5.0% through April 1, 2028	\$	12,505,000	-	600,000	11,905,000	630,000
Bond premium		259,265	-	17,284	241,981	17,284
Public works - grader lease		221,820	=	72,829	148,991	70,009
Public works - vehicle lease		-	39,894	9,006	30,888	7,014
Animal control vehicle lease		14,371	=	4,527	9,844	4,785
Public safety vehicle lease (2012)		19,844	=	6,290	13,554	6,505
Public safety vehicle lease (2013)		-	63,541	14,218	49,323	11,283
Accrued leave (net)		166,931	185,718	180,443	172,206	172,206
Estimated landfill closure costs		79,000			79,000	
Total Long-Term Debt	\$	13,266,231	289,153	904,597	12,650,787	919,086

Other long-term liabilities such as accrued leave are generally liquidated by the General Fund and bond premiums are amortized over term of the bond.

The annual requirements to amortize the general obligation bonds outstanding at June 30, 2014 are as follows:

	General Obligation Bonds						
Year Ending June 30,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>				
2015	\$ 630,000	546,090	1,176,090				
2016	665,000	514,590	1,179,590				
2017	695,000	481,340	1,176,340				
2018	725,000	453,540	1,178,540				
2019	750,000	409,540	1,174,540				
2020-2024	4,260,000	1,615,025	5,875,025				
2025-2028	4,180,000	552,758	4,732,758				
Total	\$ 11,905,000	4,572,883	16,477,883				

Notes to Basic Financial Statements, continued

VII. CAPITAL LEASES

The City has entered into lease agreements as lessee for financing the acquisition of a grader, a streets vehicle, a vehicle for animal control, and three vehicles for public safety. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments. The following is a summary of the assets acquired with the capital leases that have an outstanding balance as of June 30, 2014:

		Grader/ Streets Vehicle	Animal Control	Public Safety	Total
Machinery and equipment Less accumulated	\$	378,251	24,000	106,450	508,701
depreciation	-	(108,928)	(14,400)	(34,556)	(157,884)
Carrying Value	\$	269,323	9,600	71,894	350,817

The following is a schedule of future minimum lease payments under these capital leases and the present value of the net minimum lease payments at June 30, 2014:

Year Ending June 30,	_	General Fund
2015	\$	110,567
2016		110,669
2017		29,439
2018	_	23,225
Total minimum lease payments		273,900
Less interest portion	_	(21,300)
Present value of future minimum lease payments		252,600
Less current portion	_	(99,596)
Total	\$_	153,004

Notes to Basic Financial Statements, continued

VIII. FUND BALANCES

Fund balances at June 30, 2014, reported in the City's individual major funds and other governmental funds in the aggregate on the governmental funds balance sheet is subject to the following constraints:

				Wastewater		
			Landfill	Treatment		
			Closure	Plant	Other	Total
		General	Capital	Capital	Governmental	Governmental

Dock		-			641,391	641,391
Total assigned		-	-	-	656,308	656,308
Unassigned (deficits)	_	4,427,006			(155,469)	4,271,537
Total fund balances	\$	4,505,267	172,044		1,866,754	6,544,065
	_					

The restricted funds in the Mary Carlson Permanent fund are all expendable for repairs, maintenance, and improvements on the existing structure.

Net investment in capital assets at June 30, 2014 is made up of the following:

Capital assets, net of accumulated depreciation	\$ 48,254,062
Less:	
Bonds payable	11,905,000
Bond premium	241,981
Capital leases	252,600
Unspent bond proceeds	76,763
Net investment in capital assets	\$ 35,777,718

The Dock and Harbor Capital project fund has a \$155,469 deficit at year end. The deficit will be covered by a transfer from the general fund in FY2015.

Notes to Basic Financial Statements, continued

IX. LANDFILL CLOSURE AND POST-CLOSURE LIABILITY

State and federal laws and regulations require the City to place a final cover on its landfill site when it stops accepting waste and to perform monitoring after closure. Although closure and post-closure care costs will be paid only near or after the date the landfill stops accepting waste, accounting principles generally accepted in the United States of America require that the City record a portion of these closure and post-closure care costs as an operating expenditure in each period based on landfill capacity used during that period.

The current landfill has an estimated life of 50 years, with the installation of new more efficient incinerator equipment, resulting in the landfill lasting longer. Closure and post closure costs are estimated to be \$1,500,000. There is currently \$172,044 set aside in the Landfill Closure fund. The City will recognize the remaining estimated cost of closure and post closure care cost based on a 50-year life with the finalization of the installation in FY15.

X. EMPLOYEE RETIREMENT SYSTEMS AND PLANS

A. Employee Retirement Systems and Plans

The City follows Governmental Accounting Standards Board (GASB) Codification P20, Accounting for Pensions by State and Local Governmental Employees and GASB Codification P50, Accounting and Financial Reporting by Employers for Post-employment Benefits Other than Pensions. GASB Codification P20 and GASB Codification P50 establish uniform standards for the measurement, recognition and display of pension and other post-employment benefits other than pensions (healthcare) expenditures/expense and related liabilities, assets, note disclosure and applicable required supplementary information in the financial reports of state and local governmental employers.

Retirement Plans. All full-time employees and certain permanent part-time employees of the City participate in the State of Alaska Public Employees' Retirement System (PERS). The pension plan system also administers a post-employment healthcare benefit plan.

Summary of Significant Accounting Policies. The financial statements for PERS are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair market value or estimated fair market value.

Notes to Basic Financial Statements, continued

Termination Costs. If the City decides to terminate coverage for a department, group, or other classification of members, even if that termination results from the decision to divest of a particular City function, all affected employees in that department, group or other classification of members become immediately vested in the plan. The City must pay to have a termination study completed. The purpose of the study is to calculate the City's one-time termination costs. The costs represent the amount necessary to fully fund the costs of plan members who become vested through this process and for other changes in actuarial assumptions, such as, earlier than expected retirement, that arise from the act of termination of coverage. The City must pay a lump sum within 60 days of termination or arrange a payment plan that is acceptable to the PERS Administrator. For fiscal year 2014 the past service rate is 24.19%.

Alaska Public Employee Retirement System (PERS) – Defined Benefit Plan

Plan Description. The City of Dillingham, Alaska contributes to the Alaska Public Employees Retirement System (PERS), a multiple employer cost sharing defined benefit pension administered by the Commissioner of Administration and the Alaska Retirement Management Board (ARMB). PERS provides retirement benefits including disability and death benefits, and post-employment healthcare to plan members and beneficiaries. The authority to establish and amend benefit provisions is assigned to the ARMB. The Public Employee's Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for PERS. This report may be obtained from the system at Pouch C, Juneau, Alaska 99811.

All tier employees benefits vest with five years of credited service. Tier I employees enrolled prior to July 1, 1986 and before June 30, 2006 with five or more years of credited service are entitled to annual pension benefits beginning at normal retirement age 55 or early retirement age 50. For tier II and III employees enrolled after June 30, 1986, but before July 1, 2006, the normal and early retirement ages are 60 and 55, respectively. Employees with 30 or more years of credited service may retire at any age and receive a normal benefit.

Retirement benefits are calculated by multiplying the average monthly compensation (AMC) times credited PERS service times the percentage multiplier. The AMC is determined by averaging the salaries earned during the five highest (three highest for Police/Fire members or members hired prior to July 1, 1996) consecutive payroll years. Members must earn at least 115 days of credit in the last year worked to include it in the AMC calculation. The PERS pays a minimum benefit of \$25 per month for each year of service when the calculated benefit is less.

The percentage multipliers for police/fire personnel are 2% for the first ten years of service and 2.5% for all service over 10 years. The percentage multipliers for all other participants are 2% for the first ten years, 2.25% for the next ten years, and 2.5% for all remaining service earned on or after July 1, 1986. All service before that date is calculated at 2%.

Post-employment healthcare benefits are provided without cost to all members first enrolled before July 1, 1986. Members first enrolled after June 30, 1986, but before July 1, 2006 and who have not reached age 60 may elect to pay for major medical benefits.

Notes to Basic Financial Statements, continued

Pension benefits are adjusted each year based upon increases in the Consumer Price Index (CPI) for the prior year. The increase in the benefits is 75% of the CPI increase up to a 9% maximum for recipients who are at least age 65 or on disability or 50% of the increase up to a 6% maximum for recipients who are at least age 60 but under age 65 or who have been receiving benefits for at least five years. Starting at age 65, or at any age for those employed before July 1, 1986, a retired employee who remains in Alaska is eligible for an additional allowance equal to 10% of the base benefit or \$50 a month, whichever is greater.

Post Retirement Pension Adjustments. Post retirement pension adjustments (PRPAs) are granted annually to eligible benefit recipients when the consumer price index (CPI) increases during the preceding calendar year. PRPAs are calculated by multiplying the recipient's base benefit, including past PRPAs, times:

- (a) 75% of the CPI increase in the preceding calendar year or 9%, whichever is less, if the recipient is at least 65 or on PERS disability; or
- (b) 50% of the CPI increase in the preceding calendar year or 6%, whichever is less, if the recipient is at least 60, or has been receiving benefits for at least five years.

Ad hoc PRPAs, up to a maximum of 4%, may be granted to eligible recipients who first entered the PERS before July 1, 1986, if the CPI increases and the financial condition of the fund will permit an increase. In a year where an ad hoc PRPA is granted, eligible recipients will receive the higher of the two calculations.

Funding Policy. The City PERS active members are required to contribute 6.75% (3.26% pension costs and 3.49% post-employment health care costs) of their annual covered salary and the City is required to contribute at an actuarial determined rate; the current rate is 35.68%. The legislature capped the employer rate at 22% (10.64% pension cost and 11.36% post-employment health care cost), with the State of Alaska contributing an on behalf payment for the difference between the actuarial required contribution and the cap. The contribution requirements of plan members and the City are established and may be amended by the ARMB.

During the 25th legislation session, Senate Bill 125 passed, which established a June 30, 2008 salary floor under AS 39.35.255(a)(2). The salary floor is the total base salaries paid by an employer to active employees of the system as of the fiscal year ending June 30, 2008. The statute requires the Division of Retirement and Benefits (Division) to collect employer contributions at a minimum based on FY 2008 base salaries.

Annual Pension, OPEB Cost and On-behalf Payment. The City's annual pension cost for the years ended June 30, 2014, 2013, and 2012 were \$422,076, \$448,797, and \$480,749, respectively and was equal to the City's actual contributions. For the year ended June 30, 2014, the State of Alaska contributed \$402,279 or 13.68% (7.74% pension cost and 5.94% post-employment health care cost) on behalf of the City. This amount has been recognized as both revenue and expenditures in the financial statements.

Notes to Basic Financial Statements, continued

Alaska Public Employee Retirement System (PERS) - Defined Contribution Plan

Plan Description and Funding Requirements. Public Employers in the State of Alaska have a defined contribution retirement plan for new hires first enrolled on or after July 1, 2006. Plan members make mandatory contributions of 8% of gross eligible compensation. State statutes require the employer to contribute 5% of employees' eligible compensation. Additionally, employers are required to contribute 0.48% for the retiree medical plan, .14% for police and firefighters and 0.20% for all other occupational and death and disability benefits and 3% of employers average annual employee compensation to the health reimbursement arrangement (HRA). The effective employer contribution is 22%. Plan members are 100% vested with their contributions.

Members become vested in employers' contributions as follows:

2 years of service - 25%

3 years of service – 50%

4 years of service – 75%

5 years of service - 100%

Plan provisions and contribution requirements and amendments are established by the Alaska Retirement Management Board (ARMB). Total contributions for the year ended June 30, 2014 are as follows:

	<u>Employer</u>	<u>Employee</u>
Defined contribution	\$ 84,390	135,024
Retiree medical plan	8,101	-
Occupational health and disability benefits	6,233	-
Health reimbursement agreement (HRA)	61,003	
Total	\$ <u>159,727</u>	135,024

Actual contributions were equal to the annual required contributions.

XI. DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All assets and income of the Plan must be held in trust for the exclusive benefit of participants and their beneficiaries.

XII. RISK MANAGEMENT

The City faces a considerable number of risks of loss, including: (a) damage to and loss of property and contents, (b) employee torts, (c) professional liability; i.e., errors and omissions, (d) environmental damage, (e) workers' compensation; i.e., employee injuries, and (f) medical insurance costs of employees. Commercial policies, transferring the risk of loss, except for relatively small deductible amounts, are purchased for employee medical costs.

Notes to Basic Financial Statements, continued

The City participates in the Alaska Municipal League Joint Insurance Association (AML/JIA) which provides insurance coverage for property and contents damage, torts, general and automobile liability and workers' compensation. The AML/JIA is a public entity risk pool organized to share risks among its members. The Association's bylaws provide for the assessment of supplemental contributions from members in the event that losses and expenses for any coverage year exceed the annual contributions and income earned on such contributions for the year. Such supplemental contributions shall be based upon each members' annual deposit contribution in comparison to the aggregate annual deposit contributions of all members. The Association made no supplemental assessments during the year ended June 30, 2014.

The City has no coverage for potential losses from environmental damages. Coverage limits and the deductibles on the policies have stayed relatively constant for the past few years.

XIII. CONDUIT DEBT

On May 19, 2005, the City Council authorized the issuance of nonrecourse revenue refunding bonds in a principal amount not to exceed \$1,300,000 to refinance previously issued nonrecourse revenue bonds on behalf of Bristol Bay Native Association. The outstanding balance at June 30, 2014 was \$554,882. These bonds do not constitute a general obligation debt or pledge of the full faith and credit of the City. Accordingly, the bonds and related assets are not reflected in the accompanying financial statements.

XIV. CONTINGENT LIABILITIES AND COMMITMENTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be nominal. In the normal course of its activities, the City is involved in various claims and pending litigation.

XV. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The following expenditures exceeded their final budgets:

<u>Fund</u>	<u>Excess</u>
Special Revenue Funds:	
Library	\$ 6,539
Enhanced 911	4,094
Senior Citizen Center	16,932
Dock	361,592
Landfill	76,354
Total expenditures exceeding budgets	465,511

Notes to Basic Financial Statements, continued

XVI. SUBSEQUENT ACCOUNTING PRONOUNCEMENTS

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates covering several topics as follows:

- GASB 68 Accounting and Reporting for Pensions an Amendment of GASB Statement No.27. Effective for fiscal years beginning after June 15, 2014.
- GASB 69 Government Combinations and Disposals of Government Operations. Effective for fiscal years beginning after December 15, 2013.
- GASB 71 Pension Transition for Contributions made subsequent to the Measurement Date
 Amends GASB 68. Effective for fiscal years beginning after June 15, 2014.

Statement number 69 is not expected to have any significant impact on the financial statements of the City.

GASB Statements Nos. 68 and 71, objectives are to improve accounting and reporting for pensions. These Statements establish standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. These Statements establish methods and assumptions used to project benefit payments to their actuarial present value and attribute that present value to the periods of employee service. Note disclosures and required supplementary information are addressed in these Statements.

These Statements are effective for fiscal years beginning after June 15, 2014.

Special Revenue Funds

A Special Revenue Fund is established to finance particular activities and is created from receipts of designated revenues that are restricted for expenditures for specified purposes. The City of Dillingham's Special Revenue Funds are as follows:

Water and Sewer – this fund accounts for the operations of the water and sewer system.

Landfill – this fund accounts for the operations of the City's landfill.

Dock – this fund accounts for the operations of the City's docks.

Boat Harbor – this fund accounts for the activities of the City's small boat harbor.

Enhanced 911 Service – this fund accounts for activities of the 911 services.

Asset Forfeiture – this fund accounts for the use of funds from asset forfeitures.

Senior Citizen Center - this fund accounts for the activities of the Senior Citizen Center.

Homeland Security – this fund accounts for the use of grants received from the Department of Homeland Security.

Library – this fund accounts for the various grants and operating activities of the Public Library

Public Safety – this fund accounts for use of funds for public safety.

Local Support – this fund accounts for the use of local grants received.

Debt Service Fund

The Debt Service Fund accounts for the accumulation of monies for payments of the General Obligation School Bonds. Servicing of this debt requires various annual and semi- annual payments of principal and interest. Financing is provided by the State of Alaska debt reimbursement program, and transfers, determined annually by budget, from the General Fund.

Capital Project Funds

Capital Project Funds are used to account for the acquisition and construction of major capital facilities. These funds evolved from the need for special accounting for grants and contributions for the acquisition or construction of capital assets.

Capital Project Funds provide a formal mechanism which enables administrators to ensure that revenues dedicated to a certain capital related purpose are used only for that purpose and further enables them to report to granting agencies that their requirements regarding the use of the proceeds were satisfied. The City's Capital Project Funds are as follows:

Dock and Harbor – this fund accounts for various projects involving the dock and harbor facilities.

Water and Sewer – this fund accounts for various improvement projects to the water and sewer system.

School Bonds – this fund accounts for use of bond generated funds for the various repairs and replacements at the School District facilities.

Equipment Replacement – this fund is used to accumulate funds to purchase capital assets.

Ambulance Reserve – this fund is used to accumulate funds to purchase a new ambulance.

Capital Project Planning – this fund is used for the planning of capital projects.

Library Roof – this fund accounts for library roof repairs

Water System Improvements – this fund accounts for capital grants associated with Water System Improvements

Public Safety – this fund accounts for use of funds for public safety.

Other Local Support – this fund accounts for the use of local grants received.

The information in the schedule is presented in accordance with the requirements of the State of Alaska Audit Guide and Compliance Supplement for State Single Audits.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Independent Auditor's Report

Honorable Mayor and City Council City of Dillingham, Alaska Dillingham, Alaska

Ladies and Gentlemen:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented unit, each major fund, and the aggregate remaining fund information of the City of Dillingham, Alaska as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City of Dillingham, Alaska's basic financial statements and have issued our report thereon dated February 9, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Dillingham, Alaska's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Dillingham, Alaska's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Dillingham, Alaska's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Honorable Mayor and City Council City of Dillingham, Alaska

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Dillingham, Alaska's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

altman, Rogers & Co.

February 9, 2015

Report on Compliance For Each Major Federal Program and Report on Internal Control Over Compliance as Required by OMB Circular A-133

Independent Auditor's Report

Honorable Mayor and City Council City of Dillingham, Alaska Dillingham, Alaska

Report on Compliance for Each Major Federal Program

We have audited the City of Dillingham, Alaska's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Dillingham, Alaska's major federal programs for the year ended June 30, 2014. The City of Dillingham, Alaska's major federal programs are identified in the summary of auditor's results section of the accompanying Federal Schedule of Findings and Questioned Costs.

The City of Dillingham, Alaska's basic financial statements include the operations of its component unit, Dillingham City School District, which received \$1,721,434 in federal awards which is not included in the schedule during the year ended June 30, 2014. Our audit described below, did not include the operations of Dillingham City School District because it was subjected to a separate audit in accordance with *OMB Circular A-133*.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Dillingham, Alaska's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Dillingham, Alaska's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Dillingham, Alaska's compliance.

Honorable Mayor and City Council City of Dillingham, Alaska

Opinion on Each Major Federal Program

In our opinion, the City of Dillingham, Alaska complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the City of Dillingham, Alaska is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Dillingham, Alaska's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Dillingham, Alaska's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Federal Schedule of Findings and Questioned Costs, Continued

Section II - Financial Statement Findings

The City of Dillingham, Alaska did not have any findings that related to the financial statements.

Section III – Federal Award Findings and Questioned Costs

The City of Dillingham, Alaska did not have any Findings that relate to federal awards.

Section IV – Summary of Prior Audit Findings

Finding 2013-001	Year End General Ledger Reconciliation
Material Weakness	

Condition: There were significant adjustments made to the general ledger at the City

during the course of the audit, which resulted in a significant change in net income. Adjustments were made to revenue, capital assets and accounts

payable.

Status: This finding has been resolved.

<u>Finding 2013-002</u> <u>Grants Reconciliation/Grants Management</u>

Material Weakness

Condition: There were significant adjustments made to many grants during the course

of the audit, which resulted in a significant change in net income. Adjustments were made to revenue, accounts receivable unearned

revenue, expenditures and accounts payable.

Status: This finding has been resolved.

City of Dillingham, Alaska

Schedule of Findings and Questioned Costs, Continued

Finding 2013-003 Material Weakness

Internal Equipment Use Overtime Rates

Condition:

The City has established an internal rental rate for heavy equipment. The rate structure includes a straight time rate and an overtime rate. The rate applied is tied to the payroll status of the person operating the equipment. When the individual is on an overtime status (e.g. over 8 hours per day or over 40 hours per week), then equipment is also charged at the overtime rate.

The City adopted the current equipment rate structure through a formal Council review and approval process on the recommendation of the public works department. The concept of a straight time rate and an overtime rate might make sense in certain circumstances; for example, If the equipment was used for 12 hours straight, the last 4 hours might run hotter than the first 8. However, on application of the rule, the overtime rate is not applied to the equipment use; rather it is tied to the person operating the equipment. As another example, the equipment use charge on a Saturday costs 89% higher than the same equipment use charge on a Monday, without regard to when the equipment was used previously, solely based on the status of the employee who is on overtime on Saturday. The grant is also paying the overtime wage-rate for the Saturday work. Because this rate structure is unique, we called the granting agency directly to ask for clarification. After speaking with 3 different individuals, it became clear that there is no definitive guideline in this area.

Status: This finding has been resolved.

Report on Compliance for Each Major State Program and Report on Internal Control Over Compliance as Required by the State of Alaska Audit Guide and Compliance Supplement for State Single Audits

Independent Auditor's Report

Honorable Mayor and City Council City of Dillingham, Alaska Dillingham, Alaska

Report on Compliance for Each Major State Program

We have audited the City of Dillingham, Alaska's compliance with the types of compliance requirements described in the State of Alaska Audit Guide and Compliance Supplement for State Single Audits that could have a direct and material effect on each of the City's major state programs for the year ended June 30, 2014. The City of Dillingham, Alaska's major state programs are identified in the accompanying Schedule of State Financial Assistance.

The City of Dillingham, Alaska's basic financial statements include the operations of its component unit, Dillingham City School District, which received \$9,571,704 in state awards which is not included in the schedule during the year ended June 30, 2014. Our audit, described below, did not include the operations of Dillingham School District because it was subjected to a separate audit in accordance with the Guide.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Dillingham, Alaska's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the State of Alaska Audit Guide and Compliance Supplement for State Single Audits. Those standards and the State of Alaska Audit Guide and Compliance Supplement for State Single Audits require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the City of Dillingham, Alaska's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However our audit does not provide a legal determination of the City of Dillingham, Alaska's compliance.

Honorable Mayor and City Council City of Dillingham, Alaska

Opinion on Each Major State Program

In our opinion, the City of Dillingham, Alaska complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2014.

Report on Internal Control over Compliance

Management of the City of Dillingham, Alaska is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Dillingham, Alaska's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Dillingham, Alaska's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.

Internal Equipment Use Overtime Rates

Department of Commerce, Community and Economic Development 09-DC-449 City Shoreline Emergency Bank Stabilization

Condition:

The City has established an internal rental rate for heavy equipment. The rate structure includes a straight time rate and an overtime rate. The rate applied is tied to the payroll status of the person operating the equipment. When the individual is on an overtime status (e.g. over 8 hours per day or over 40 hours per week), then equipment is also charged at the overtime rate.

The City adopted the current equipment rate structure through a formal Council review and approval process on the recommendation of the public works department. The concept of a straight time rate and an overtime rate might make sense in certain circumstances; for example, If the equipment was used for 12 hours straight, the last 4 hours might run hotter than the first 8. However, on application of the rule, the overtime rate is not applied to the equipment use; rather it is tied to the person operating the equipment. As another example, the equipment use charge on a Saturday costs 89% higher than the same equipment use charge on a Monday, without regard to when the equipment was used previously, solely based on the status of the employee who is on overtime on Saturday. The grant is also paying the overtime wage-rate for the Saturday work. Because this rate structure is unique, we called the granting agency directly to ask for clarification. After speaking with 3 different individuals, it became clear that there is no definitive guideline in this area.

Some charges to the grant may be unreasonable based on the overvaluation of the rate applied.
