Comments from Project Manager, Steve Cropsey:

The project is funded from 2009 State of Alaska Grant for Bank Erosion Protection for the shoreline East of the boat harbor. City Manager Forster worked with the State of Alaska grant administration staff and secured their agreement to use the funds not only for protection of Picnic Park but also to provide a funding source for armor rock protection of the Snag Point Bulkhead. There is over \$900,000 of unspent funds from the original grant of \$1.5 million. The actual bid result numbers will be included in the "lay down" Resolution that will be presented to the City Council at the October 13<sup>th</sup> meeting.
