

## **Travel Notification Form Requirement FAQ**

### **Who needs to obtain a travel form before entering the City of Dillingham?**

Every person entering the City of Dillingham needs to submit a completed travel form prior to arrival. If you fail to file a travel form prior to arrival you may receive a citation with a potential \$300.00 fine and be asked to complete the form prior to being authorized to leave the airport.

### **What type of travel is exempt from the form requirement?**

Exemptions from the form requirement are not based on the person, but on the type of travel. There are three categories of travel that are exempt from the travel form requirement:

1. Transit through Dillingham, where the traveler remains inside the airport terminal buildings or on the airport runway.
2. Traveler has a charter flight reservation that departs from a location other than the Dillingham Airport, and is scheduled to depart within three hours after arrival into Dillingham. You must proceed directly from your point of entry to the place your charter departs, and then depart Dillingham on the charter.
3. You enter Dillingham from within the Dillingham Census Area.

### **For example, if I live in Aleknagik, can I travel into Dillingham without submitting a travel form?**

Yes. Exactly.

### **While I'm in Dillingham, can I make other stops or visits?**

If you arrive from outside the Dillingham Census Area a quarantine (Emergency Ordinance 2020-20) is in place. Please arrange for all needs by having critical personal needs in place, or coordinate deliveries with local retailers, family, and friends.

**Do I need a travel form to fly into Dillingham?**

Yes, unless your travel is otherwise exempt from the travel form requirement. To determine if your travel is exempt, see the answer to the question, “What type of travel is exempt from the form requirement.” If you will not leave the Dillingham airport on your layover to your final destination, you do not need a travel form. That is one of the exemptions.
